Flooring firm takes space in Justin

A big industrial tenant has snapped up a new distribution building in Denton County north of Fort Worth. LL Flooring — formerly known as Lumber Liquidators — is taking almost 458,000 square feet of warehouse space in the Northlink business park in Justin.

The building is north of the AllianceTexas development and near BNSF Railway's intermodal logistics center.

Founded in 1996, LL Flooring operates more than 440 flooring stores nationwide. Its warehouse lease north of Fort Worth is one of Dallas-Fort Worth's largest recent industrial building transactions.
